

Please consider this as a formal complaint against Sinclair Broadcasting.

The company is neglecting its responsibilities as a broadcaster using the public airwaves by airing a biased, one-sided presentation on 62 stations on the eve of an election. The political interests of company management are receiving more attention than the benefit to the general public who deserves legitimate news programming, not opinion and distortion dressed up as "news."

This is another example of the dangers of media consolidation. I urge you to reject any attempts by Sinclair Broadcasting to acquire more stations, and to reject their application for license renewals on current stations. They have proven they are not worthy of use of the public airwaves.
